I love this game, I find myself coming back to it. And for what it was worth? I've gotten way more than I bargained for.. Genuinely unique, fun, chill and story-driven tactical rpg adventure. I love it. 10\/10. One of my favorite games on steam. 100% recommend.. Absolutely delightful rogue-like RPG with light turn-based tactics; pick a team of three characters at the start of your run and try to explore the world! Interesting combat, a large variety of node-based events, enemies, and locations, and surprisingly deep progression via item, investment and skill management. Highly recommended!
