Great casual game

retro gameplay with decent graphics

Casual @ 6.5/10. Great story and art! But I would say there is about 3 hours worth of content, and then its a grind with the same repetitive process until you unlock the ending.

7/10

Good game but I'd wait for a sale.. Interesting setting and simple mechanics make this game a blast to play when you have an hour of spare time.. RPG with poker mechanics.

I hate poker.

Why not rummy mechanics?

7.5/10. Fun pick up and play roguelite that emphasizes fast, turn based action. For lesser skilled players the overall challenge curve can get pretty steep later in the game, but it never really feels overly unfair if you're being mindful.. RUNS LIKE TRASH. Hillarious little but addicting game. I thought - really? A bat, ball and two idiots? Sounds like Brexit but let's give it a try. And I had fun for hours. Great game when You have to talk with ppl on phone a lot. Require only mouse. Brilliant.. This is a fun, neat little game. Very simple controls and simple goals. you play as thi light bulb man and take down these blob creatures with a glowing ball of something....This is also an app for mobile. I love the art in this game and the music really ties it together. This is a great game to just sit back and relax but still get some game time in.. Garbage, don't waste your time or money on this!!!! Plus fake reviews

This is an amazing Expansion to the AoE series. The new terrains are my personal favorite, and the expansion itself is nice play. I totally recommend it!. It's OK... The ambience is really good, but that mouse! Takes a while to get used too, or sort out in the options.

Story is a little lacking (notes to find and read), and loading was a little longer than I would have hoped. Although, it does have a few puzzles...

I not played a great amount yet, but promising start. This is Banished with a different skin. Its more 3d with how the game looks and more updated to reflect that, but if you like wild west and banished this is more of your taste.. I don't like not recommending something, but I feel like someone has to say it: this was not a bad video, it was just very underwhelming for me.

I expected so much more... but when they say 'relaxing' I feel like they just meant 'boring'. I expected something more like 'Space Dream VR', but this was (for me... maybe I was looking in the wrong direction or something...) just empty space with a bit of very slow music... and when I felt it was about to get interesting, it did for like -literally- three seconds, just raising my expectations to lead into a big let down.

It's not that the video was not well made or anything; maybe a lot of people will like it and enjoy it (and for the price it's honestly not a problem to give it a try anyway without feeling cheated or whatever); but if you're like me and you need more action or faster music in your experiences, I'm pretty sure this will only trap you in a place in which you'll just ask yourself 'when will this end so I can play something else?' for almost nine minutes.

If you're a gamer and enjoy fast and dynamic experiences, I'd say this is not for you.. Really easy, and short, but very fun. Just wish they released the whole surgeon simulator game for VR.. This game is just down right confusing you have no idea what your doing half the time. When I delete you maybe I'll stop feeling so bad.

Don't buy.
